

Industrial Wireless Controls by Electrodepot

Unlimited Applications: Industrial Monitoring, Pump control, Monitor remote instruments, Remote sensors, Lighting control, Mobile remote system, PLC remote, Factory process control, Early warning systems, Alarms, Generators, Solar, Wire replacement.

Long Range up to 20Km+

Modular multiple channels

- New advanced wireless technology
- Better performance and range
- Output control: timing, pulse, latch etc.,
- Extended range power amplifiers
- Wider Frequency band selection
- Reliable fail safe transmission mode
